

First course evaluation meeting

Place: Office of Tomas Grönstedt

Time: January 2006-01-29, 16.00

Participants: Examiner + two student representatives

Protocol:

The todo-list from last year was discussed in detail. The following items were raised:

- Have a short “post-discussion” of design task 2
- Just have a single industrial lecturer that gives the material presented by “Martin” last week
- Exchange problem 2.3 with a problem from an exam
- Make progressing as a MATLAB programmer a learning goal for the course
- Make sure that the course can be found by english speaking students .
